

Construction for Education

Who We Are

MTX are market leaders in the provision of permanent and temporary bespoke modular buildings for the Education sector.

Why

With an ever greater requirement across the UK for high quality buildings completed in minimal time, MTX are experts in fast-track construction striving to meet our clients exact accommodation requirements.

What

Our bespoke modular buildings represent an equivalent alternative to a traditional construction solution. Our system offers unbeatable advantages to the Education sector in terms of economic efficiency, speed of delivery and sustainability with guaranteed cost and programme certainty.

Working Safely

We are committed to maintaining our excellent Health and Safety record. Striving to be accident and incident free is one of our key goals.

Throughout our business there is a clear commitment to developing a proactive safety culture through appropriate specialist training.

Supported by recognised Health and Safety professionals, we set clear targets and objectives to ensure that high standards of Health and Safety are integrated into everything we do.

Design

Our tailored product offers endless flexibility ensuring we meet your exact requirements:

- A design life of up to 60 years
- Solid concrete floors
- Unlimited architectural creativity
- Clear span modules maximising usable floor space
- Tailored environmental design
- Building control compliant
- Finished to a bespoke design and with the end user's personal preference in mind

Benefits

Modular off site construction has many benefits:

- Extremely fast delivery periods
- Cost certainty
- Improved health and safety
- Minimal site disruption
- Single source responsibility
- Less waste and more recycling
- A sustainable approach

Programme

Modular off site construction allows for a far quicker construction period which can be up to 60% faster compared to a traditional build. This ensures the client full use out of their new facility much sooner.

Finance

At MTX we understand that educational facilities are in high demand on a tight government budget. That's why all of our projects are planned and designed with a cost guarantee.

Our buildings can be financed and structured to meet your organisations needs from both a budget and balance sheet perspective.

Sustainability

We understand that Educational bodies are under more pressure than ever to make their environments more eco-friendly and to promote 'greener' thinking among their students.

The forward thinking approach of our team extends to the environment. The construction of energy efficient buildings and environmentally friendly construction techniques is a fundamental part of our business.

We are committed to ensuring our clients meet their sustainability challenges by providing support and advice from consulting and planning, design and construction through to post contract maintenance and support.

What our clients said:

We would like to take this opportunity to thank MTX Contracts LTD for delivering this project to a very high standard and in compliance with budget and timescale deadlines.

The MTX team have demonstrated a high level of competency and worked closely with everyone to complete a fully fit for purpose solution.

We are proud that our new building has already received so many positive comments and congratulations.

We would have no hesitation recommending MTX Contracts LTD to any of their future and prospective customers and act as referees for any of their publications

Daniel Powell – Finance Director for Ashmole Academy High School

MTX were extremely engaging, proactive and responsive to our needs. The project timescales were challenging in all areas from design, manufacture to installation.

We fully intend to use this company again and would have no hesitation in recommending them for future works

Gerrard Gibney - Manager Special Projects for Galliford Try
